

Christleton C.C. – Changing Rooms and Showering Facilities Policy

These guidelines apply to adults, and children, sharing changing facilities.

Best practice principles to be adopted by Christleton Cricket Club are as follows:

- Adults must not change, or shower, at the same time using the same facility as children, with the following exception:
 - Players 10 and under must be supervised at all times with 2 adults of the same gender

- Adults should try to change at separate times to children during matches, for example when children are padding up

- If adults and children need to share a changing facility, the club must have consent from parents that their child(ren) can share a changing room with adults in the club, and Parents should be allowed to supervise.

- If children play for Open Age teams, they, and their parents, must be informed of the club's policy on changing arrangements

- Mixed gender teams will have access to separate male and female changing rooms

- Mobile phones must not be used in changing rooms

If children are uncomfortable changing or showering at the club, no pressure should be placed on them to do so. Suggest instead that they may change and shower at home.
