

## Christleton C.C. – Photography and Video Camera Guidelines

**Christleton CC (The Club) is keen to promote positive images of children playing cricket and is not preventing the use of photographic or videoing equipment.**

We recognise that photographs are considered 'personal data' in terms of the Data Protection Act. The Club will look to seek consent from a child's parents/carers before capturing, sharing or publishing images where a child can be identified, including posting on the club's website etc. (Please see our player profile policy). Parents / carers will be offered the opportunity to withhold consent for photographs / filming of their child.

The Club will remain vigilant to some who people may use sporting events as an opportunity to take inappropriate photographs or film footage of children. Any concerns during an event should be reported to a club official or event organiser.

It is possible that if a picture and name was placed in the local paper, the club website etc., the information could be used inappropriately. For this reason the The Club guidance is that a child's picture and name should not appear together.

The Club will:

- Strive to inform parents & children if Photographs/images are to be taken at matches or training.
- Strive to ensure that the relevant person of the other team are aware of any particular child where consent has not been given on the player profile form
- Listen to any concerns reported. Concerns regarding inappropriate, or intrusive, photography should be reported to the Club Welfare Officer and recorded in the same manner as any other child protection or safeguarding concern
